Stanford, California 94305

U S A

Ref : Senatskommission der DFG für Sicherheitsfragen bei der Neukombination
von Genen

Meeting on Friday, November 28, 1975 at Bonn

Dear Professor Lederberg :

As already Professor Westphal, Freiburg, wrote to you in his letter dated
October 16, the commission of the Deutsche Forschungsgemeinschaft (DFG) on
safety questions of recombinant DNA - molecules will have its next meeting
at November 28 this year in Bonn - Bad Godesberg and you will be invited to
give a speech on aspects of genetic manipulation.

This first invitation will be followed by the official through the president
of the DFG as soon as you give me notice that you will be able to arrange
the visit to Germany. Since 3 organizations will invite you, the DFG will
take over one third of your travel costs up to 1000 DM.

Please let me know as soon as possible whether you can arrange despite of the
late invitation to come to Germany and especially to Bonn. We would appreciate
very much your coming.

Sincerely yours

W. Klofat
